1. What did you like best about the course and/or how the instructor taught it?

I liked how kind the teacher was.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

Nothing, keep being yourself.

1. What did you like best about the course and/or how the instructor taught it?

Professor Jones is such a delight! she is one of the best professors I have interacted with throughout my whole education career. She is very clear with her requirements and is very communicative. The class has taught me so much!

2. What suggestions do you have for improving the course and/or how the instructor taught it?

Incredible, wouldn't change a thing!

1. What did you like best about the course and/or how the instructor taught it?

Group projects are never my favorite, but the way that these were set up was good and the work was simple and clear enough. The collaboration between our teams was enough and I actually learned a lot from these group work experiences.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

(No response.)

1. What did you like best about the course and/or how the instructor taught it?

Very helpful professor, cares a lot about the success of students

2. What suggestions do you have for improving the course and/or how the instructor taught it?

NO suggestions at all

1. What did you like best about the course and/or how the instructor taught it?

I really enjoyed the several updates during the week. Because the class is online, they helped keep me on track with the assignments and readings.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

The instructor did a great job. I can't think of any improvements.

1. What did you like best about the course and/or how the instructor taught it?

The instructor was nice and respectful to the student despite of the class being online.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

none.

1. What did you like best about the course and/or how the instructor taught it?

I am thankful that Instructor Jones had no part in creating any of the assignments.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

The instructor did not participate in creating any of the course material. Some other Professor wrote all of every single assignment. That was a good thing. The only words that "Professor" Jones, as she requires to be called, wrote were her politics and ideology heavy messages to the class, which made it seem to be required course instructions. I could see how deranged and race-obsessed her class would have been if "Professor" Jones crafted the materials.

1. What did you like best about the course and/or how the instructor taught it?

All the course information was easy to access and understand. Expectations were very clear, making it easy to do what needed to be done to get a good grade.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

More collaborative assignments early in the semester might make the larger projects at the end of the semester easier.

1. What did you like best about the course and/or how the instructor taught it?

being able to redo a quiz if needed. The reminders for things dues THE GROUP I ENDED UP WITH! (first time a group where EVERYONE worked hard)

2. What suggestions do you have for improving the course and/or how the instructor taught it?

PLS...no discussions....I beg of you. There is not point as we work in groups and it is redundant to repeat it all.

1. What did you like best about the course and/or how the instructor taught it?

Professor Jones is a fantastic communicator. She responds to emails with humanity and precision. All questions are answered and critiqued so the student has full understanding.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

Not much. Sometime it took a few days to hear back from, but that is normal for most professors.

1. What did you like best about the course and/or how the instructor taught it?

I feel like I learned so much from this class that I will reference continually throughout my professional career(s). Dr. Jones was extremely well-organized, accessible, and sensitive to students' concerns and needs regarding the class. Her feedback on assignments was helpful, friendly, and enthusiastic; you could tell that her motivation for being a professor is a genuine interest in the subject she teaches. I also really appreciated that environmental topics (i.e., an article about sea-level rise, an assignment about SLR, and an assignment about environmental hazards) were brought up several times throughout the course. Simply, if the natural world didn't, we wouldn't have anything. More non-environmental courses should integrate knowledge of the natural environment and the perils it currently faces.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

(No response.)

1. What did you like best about the course and/or how the instructor taught it?

The fact that we could take quizzes more than once.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

Maybe some scheduled zoom meetings.

1. What did you like best about the course and/or how the instructor taught it?

The instructor did a good deal to promote group contact, group work, and collaboration in an online course. Much better than I had ever seen previously.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

None

1. What did you like best about the course and/or how the instructor taught it?

very good readings

2. What suggestions do you have for improving the course and/or how the instructor taught it?

(No response.)

1. What did you like best about the course and/or how the instructor taught it?

She was very involved with students.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

Less group work, especially for an online class.

1. What did you like best about the course and/or how the instructor taught it?

The textbook was really well designed and had a good amount of applicable insight to different writing methods. The instructor was very understanding of occasionally missed assignments and all assignments that were given to us were reasonable and applied material from the textbook that we were quizzed on.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

I can't think of anything. I had an overwhelmingly positive experience in the class.

1. What did you like best about the course and/or how the instructor taught it?

The instructor was very understanding and took students' opinions into consideration. This is something that I feel is very needed, especially in these times, but many other classes have sadly lacked. Overall, the communication and the mutual build respect was what I liked best about the course. The professor gave great feedback and was very reciprocating.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

Replying to others' discussion post helps build and familiarize students with one another, along with ensuring students consider varied ideas, but I believe they became quite unnecessary at times. Some discussions replies did not seem very beneficial but rather busywork. I think having replies on specific discussions, or every other week may be a better option rather than having it always required.

1. What did you like best about the course and/or how the instructor taught it?

Instructions and expectations were clear and detailed.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

N/A

1. What did you like best about the course and/or how the instructor taught it?

Actual online class. Do what you want, when you want.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

Challenge the students more on the quizzes, or discussion posts. 7 attempts for a quiz, is quite bizarre.

1. What did you like best about the course and/or how the instructor taught it?

how you can work ahead if you needed to

2. What suggestions do you have for improving the course and/or how the instructor taught it?

none

1. What did you like best about the course and/or how the instructor taught it?

I liked how the instructor would sometimes submit comments throughout the year about the assignments I turned in. They offered constructive criticism that I appreciated.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

(No response.)

1. What did you like best about the course and/or how the instructor taught it?

I like how the Professor did the announcements, specially with this class as there was no zoom lectures.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

None, everything was fine

1. What did you like best about the course and/or how the instructor taught it?

Always gave good feedback, fair grader

2. What suggestions do you have for improving the course and/or how the instructor taught it?

(No response.)

1. What did you like best about the course and/or how the instructor taught it?

Excellent structure of the course and material. Instructor communicated consistently.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

(No response.)

1. What did you like best about the course and/or how the instructor taught it?

Professor Jones was very detailed, organized, and I love that she always provided helpful feedback on all of our assignments. I also appreciated that she was open about helping out her students in any way she could, and genuinely cared about the success and well-being of us as well.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

I would've really loved it if our class could've had weekly zoom meetings, but I understand that as an online course, it isn't allowed to be required. Otherwise, I feel that Professor Jones conducted her class very well and would love to take one of her classes again.

1. What did you like best about the course and/or how the instructor taught it?

I liked the feedback I received on my assignments

2. What suggestions do you have for improving the course and/or how the instructor taught it?

I don't think the projects are very effective in an online setting

1. What did you like best about the course and/or how the instructor taught it?

The course was entirely on webcourses with no in-person meetings however I found that this instructor was more engaging and provided more feedback than any other professor I had this semester. In my other webcourse only course I was given feedback on material 4 weeks after the submission dates of assignments at the earliest. This professor provided feedback very quickly on every assignment.

2. What suggestions do you have for improving the course and/or how the instructor taught it?

N/A
